

# Gueulette Arnaud

Data Engineer | Data Scientist | Machine Learning Engineer

**Location:** Belgium, Brussels | **Phone:** +32 488 69 25 31 | **Email:** arnaud\_gueulette@outlook.fr

## Professional Summary

---

Data Consultant with 2 years of experience in planning, designing, building, testing, and deploying data systems, data pipelines, and machine learning models. Skilled in Python, SQL, Azure-AWS, and Docker. Proven ability to translate business needs into technical solutions, with expertise in developing some of them end-to-end.

## Technical Skills

---

- **Languages**  
Python, (T-)SQL, Java, Bash, HTML, CSS
- **Stack Tools**  
Git, Pyenv, Poetry, Pandas-PySpark, PyTest - Pydantic, Optuna, Airflow-Mage, MLflow, DVC, Docker, Flask-Streamlit
- **Data Systems**  
SQLite, MySQL, Microsoft SQL Server, PostgreSQL, ElasticSearch, MongoDB
- **Specialized Libraries & Frameworks**  
Scikit-learn, SciPy, Statsmodels, PyTorch, Tensorflow, Keras, (Py)Spark, Psycopg2, SQLAlchemy, SparkMLib, Langchain, ...
- **Cloud Technologies**
  - **AWS** - S3, EC2, RDS, Kinesis, Glue (Crawler), Athena, Lambda
  - **Azure** - Data Lake Storage, Virtual Machine, Data Factory, ML Studio
  - **GCP** - Cloud Storage, Compute Engine, BigQuery
  - **Cloudera** - Machine Learning
- **Data Visualization Tools**  
Power BI, Kibana, Grafana
- **Other Knowledges**  
Terraform, Apache Kafka, Apache JMeter, Debezium, Power Automate, SAS, R, Excel, Power Query

## Soft Skills

---

- **Languages:** French (C2), English (C1), Dutch (B1)
- **Effective Communication**
- **Teamwork and Collaboration**
- **Business-Driven**
- **Critical Thinking**
- **Problem-Solving**
- **Continuous Learning**
- **Curiosity**
- **Creativity**

# Professional Experience

---

## Data Consultant, Sopra Steria Benelux

Sept 2022 - Present

- **EUROCONTROL (External Client)**
  - Planned, designed, developed, and deployed a multi-step forecasting model to assist traffic operators in determining the optimal number of arrivals and departures (flights) per hour in a given airspace, considering weather conditions. This model reduced the time operators spent on manual decision-making, allowing them to focus on more valuable operational tasks.
- **SOPRA STERIA (Internal Client)**
  - Researched and documented best practices for utilizing AI-powered solutions to support developers in their daily coding tasks throughout the software development lifecycle (SDLC) e.g. *tools, prompt engineering, privacy risks, ...*
  - Analyzed, measured, and assessed the feasibility of integrating an Elasticsearch search engine into an existing data system. The goal was to enhance the query capabilities and performance of the system through this integration.
  - Developed an end-to-end data pipeline to ingest energy consumption invoices (raw format: PDF), clean, process, and integrate them into the (SAS) IBM Envizi ESG Suite Platform. Delivered high-value insights and reports, significantly improving internal decision-making.
  - Created a proof-of-concept (POC) end-to-end data system to ingest energy consumption invoices (raw format: PDF), clean, and process the data to provide key performance indicators (KPIs) related to energy usage and costs. Delivered actionable insights and reports, enhancing internal decision-making.

## Education

---

- **Master's Degree in Data Science**

*Option Statistics - GPA 3.0*

Université Catholique de Louvain, 2020 - 2023

- **Bachelor's Degree in Business Engineering**

*Option Computer Science and Operational Research - GPA 3.0*

Université Catholique de Louvain, 2017 - 2020

## Certifications

---

- AZ-900: Microsoft Azure Fundamentals
- DP-900: Microsoft Azure Data Fundamentals
- AI-900: Microsoft Azure AI Fundamentals

## Other Achievements

---

- [EU Defence Innovation Scheme \(EUDIS\) - Hackathon 2024](#)  
Team EUnify - 1<sup>st</sup> (Belgium) - 3<sup>rd</sup> (Europe)
